ABOUT ME

Seasoned Android Developer with a proven track record of designing and implementing high-quality mobile applications. Proficient in Kotlin and Java, with a strong understanding of the Android SDK and RESTful APIs, and over two years of experience leading a mobile team. Dedicated to staying updated with the latest trends and technologies in the Android ecosystem, including AI-assisted development workflows. I'm eagerly seeking a collaborative environment where my enthusiasm for innovation can flourish and contribute to impactful projects.

SKILLS

Technical Skills

- Understanding of OOP
- Programming languages: Kotlin (Android Jetpack Compose + XML), Java, Dart (for Flutter)
- Web service integration (SOAP / REST / JSON / XML) with Retrofit, OkHttp3, Reactive
- Google services and others (Play Console / FCM / Crashlytics / Firestore / Billing), third-party login (Facebook, Google), Coroutines and Flow
- Mobile database (Room / SQLite / Realm)
- Dependency injection (Hilt)
- Project structure (MVC / MVP / MVI / MVVM)
- Understanding common design patterns
- Version control (Git / SVN)
- Software development tools (Jenkins / Sourcetree / Proxyman / Jira / Redmine)
- Debugging and troubleshooting
- AI-assisted development: proficient with tools such as Claude and Codex; experienced in the Model Context Protocol (MCP), building custom skills, and working with AI agents such as OpenClaw and Hermes

Soft Skills

- Collaborate / work with other teams in a development environment (Product / Design / BE / System / QA / ...)
- Teamwork / individual work
- Review source code and provide technical support for other team members
- Self-learning, researching, staying updated with new technologies

WORK EXPERIENCE

Android Developer — Team Lead

Oct 2021 – Present · FPT Play (FPT Television Company)

Team coordination — code reviews — technical guidance — code contribution

Android Developer

May 2019 – Sep 2021 · FPT Telecom

Develop Android applications — implement features — support team members

Android Developer — iOS Developer

May 2018 – Apr 2019 · ISB Vietnam

Develop iOS and Android applications — self testing — fixing bugs

Android Developer — BE Developer

Dec 2017 – Jul 2018 · Graduation thesis — personal projects

Develop Android application — develop backend system

Internship — Android Developer

Jul 2017 – Nov 2017 · STYL Solutions Pte. Ltd.

Develop Android application

PROJECTS

FPT Play — FPT Telecom (Jan 2022 – Present)

- **Description:** Watch television, films, TV shows
- **Team size:** 6+
- **My position:** Android Developer — Team Lead
- **My responsibilities:** Team collaborator; planning timeline, allocating resources, implementing features; providing technical guidance, supporting other team members, reviewing code
- **Technologies used:** Kotlin — MVVM + MVI — Coroutine — Flow — Retrofit — Hilt — Room — Exoplayer2 — Navigation Component — Clevertap — Google Services

FPT TV Remote — FPT Telecom (2020 – 2021)

- **Description:** Turn a mobile device into a smart remote for the FPT IPTV Box
- **Team size:** 5
- **My position:** Android Developer — Representative member
- **My responsibilities:** Team collaborator; implementing features; providing technical guidance, supporting other team members
- **Technologies used:** Kotlin — MVVM — Retrofit — RxKotlin — Coroutine — Flow — Socket — Hilt — Google Services

FPlayer — FPT Telecom (2019 – 2020)

- **Description:** Player library used to play media content such as video / audio / subtitle, based on Exoplayer from Google
- **Team size:** 3
- **My position:** Android Developer
- **My responsibilities:** Implementing features — writing instructions and documents
- **Technologies used:** Kotlin — RxKotlin — Exoplayer

Foxy — FPT Telecom

- **Description:** Watch TV / movies online application
- **Team size:** 6
- **My position:** Android Developer
- **My responsibilities:** Fix bugs

- **Technologies used:** Kotlin — MVVM — Hilt — Retrofit — Coroutine — Firebase

7Pay — ISB Vietnam (Jun 2018 – Mar 2019)

- **Description:** Manage users' banking cards, charge, payment, sharing money with other people
- **Team size:** 15+
- **My position:** Android Developer — iOS Developer
- **My responsibilities:** Create app UI following specs; handle user interaction with the app; data processing in app
- **Technologies used:** Java — MVP — RxJava — Retrofit

Smart Buddy — STYL Solutions (Jul 2017 – Nov 2017)

- **Description:** An app that helps parents track and manage their children (health, position, wallet, ...)
- **Team size:** 4
- **My position:** Android Developer
- **My responsibilities:** Create app UI following specs; handle user interaction with the app; data processing in app
- **Technologies used:** Java — MVC — RxJava — Retrofit — Realm DB — BLE — Google Services

EDUCATION

Aug 2014 – Dec 2018 · University of Information Technology (UIT)

Major: Computer Science — Honor Program GPA: 8.08 / 10

AWARDS & RECOGNITION

- **Excellent Individual of the Year** — FPT Play, 2025
- **GenAI Hackathon, 2nd Place** — FPT Play, 2024
- **Excellent Individual of the Year** — FPT Play, 2023
- **Outstanding Foxer (Foxers Siêu Đẳng)** — FPT Telecom, Q1 2022

WRITING

I publish Android and development articles on Medium at <https://dzungvu.medium.com>. Recent posts:

- Say Goodbye to Port Forwarding: Why Tailscale is the Future of Home Networking (Mar 2026)
- OpenClaw with free local web search — SearXNG (Mar 2026)
- [Android Development] Make Bundletool Portable (Jun 2023)
- Personal Flutter Project Structure with Repository Pattern — Demo App (Sep 2021)
